Electives

As many as needed to get 30 hours in the major

Electives can be any course in EEOB numbered 2000-5999. Electives can also come from departments outside EEOB if the course fulfills the goals of the evolution & ecology major. Acceptable courses include Biochemistry 4511, Entomology 4600 and 4607, Environment and Natural Resources 3300, Microbiology 4000 and 4100, and Molecular Genetics 4500 and 4606. Up to 3 hours of research or internship credit may be counted toward the major. Other courses must be approved by the evolution & ecology advisor, Sue Ellen Dehority (dehority.2@osu.edu).
