

# Summer Research Assistants wanted

## Pest Control and Pollinator Health

Summer research assistants needed for a USDA-funded project exploring how pesticides influence pest control and pollinator health in Pumpkins grown on farms in Ohio. The position is paid and full-time from ~May 15 – August 15. Travel to field locations in personal car may be required.

Qualifications: Current OSU undergraduate pursuing a degree in entomology, ecology and evolution, biology, zoology, natural resources, or related field in good academic standing. Some field research or experience with insects, especially bees preferable.

For more information about the project, please visit: <http://u.osu.edu/goodell.18/>

**Interested applicants please send a brief statement of interest, a current cv, transcript, and names and contact information of 3 references to Dr. Karen Goodell, [goodell.18@osu.edu](mailto:goodell.18@osu.edu).**
